

Position Type: Full-time, 10-month position beginning August 2024

Education Level: Bachelor's degree required, Master's degree preferred

Job Description and Qualifications

The high school Physics Teacher and Robotics Club Moderator will teach three sections of high school physics (two regular and one honors), one section of high school physical science and will oversee our Robotics Club. The best candidates will also be qualified to coach. Candidates for this position should have a passion for their content area and have a desire to grow as instructors and mentors of students.

Responsibilities:

- Uphold professional obligations both in and out of the classroom, including but not limited to assigned duties, meetings, parent conferences, in-service training, and school events
- Contribute to a positive faculty culture by building collaborative, collegial, and respectful relationships with colleagues and overtly supporting fellow teachers and administrators
- Maintain professional standards of appearance, courtesy, responsiveness, discretion, punctuality, and attendance and demonstrate a high standard of personal character and conduct at all times
- Consistently demonstrate appropriate planning and preparation for instruction specifically adapted to the instructional needs of each student and each class
- Maintain academic and behavioral standards and expectations for all students
- Demonstrate through words and deeds a genuine commitment to Christ Episcopal School, its mission, its students, its faculty, and its leadership
- Contribute to a safe, supportive school environment for both students and parents by acting with compassion and integrity in all situations, while at the same time maintaining appropriate professional boundaries
- Model the mission, philosophy and goals of the School to all staff, parents, students, and the community

Qualifications:

- Possess a deep understanding of specified content and expectations
- Ability to engage students in frequent hands-on and laboratory learning experiences
- Knowledge of learning differences and the ability to differentiate instruction in the classroom based on those needs
- Ability to communicate effectively both verbally and in written form
- Analytical approach to curriculum, instructional methods, and students
- Flexibility as it relates to classroom management, pacing of curriculum, and student expectations
- Compassion for students, parents, and colleagues
- Perform other duties as assigned by the High School Division Head and the Head of School
