About Us

Christ Episcopal School is a church-affiliated, coeducational day school offering a challenging college preparatory curriculum. Christ Episcopal School is accredited by the Independent Schools Association of the Southwest (ISAS) and by the Southwest Association of Episcopal Schools (SAES). It is also approved by the state of Louisiana.

Located north of Lake Pontchartrain in Covington, a suburban community of New Orleans, the school occupies two campuses. Grades 1–12 share an evolving campus of 45 acres that is adjacent to the I-12 corridor and expanding residential and commercial developments, while grades Early Pre-K through Kindergarten are on a campus in historic downtown Covington. Founded in 1984, CES enrolls students from a variety of cultural, social, and economic backgrounds. There are 600+ students enrolled across all divisions, with 101 of those in the Upper School. The Class of 2027, the school's 15th graduating class, has 30 members. The Upper School faculty consists of 15 full-time and 7 part-time teachers.

Curriculum Notes

Advanced Placement: Students at CES are limited to AP European History as sophomores. Juniors and seniors have no AP course limits.

Seniors Speak: CES requires all seniors to successfully complete a year-long independent research project and make an oral, Ted Talk-like, presentation. Each student chooses a topic to investigate, one that holds personal interest or meaning. Seniors Speak develops rigorous research skills while leaving room for individual and creative expression.

Arts: CES offers innovative, challenging experiences in both performing and visual art. In addition to technical training, our program develops the creative potential of the students through problem-solving, project-based learning, and hands-on instruction. Upper-level, Honors, and Independent Study options provide the opportunity for passion enrichment through a demanding curriculum.

Science: CES students are required to make observations, think critically, and provide evidence to support their reasoning about the natural world around them. We engage in curricula that foster discovery, inquiry, and analysis through lab experiences, real-world phenomena case studies, and class discussion. Honors and AP courses are rigorous and fast-paced.

Mathematics: The honors track at CES uses curriculum from Phillips Exeter Academy and consists of a colloquial, word-problem-based approach to Algebra I, Geometry, and Algebra II in 8th through 10th grades. These classes are geared toward advanced students who work well with an exploratory and interactive approach to concepts that often go beyond the material covered in a traditionally taught math class.
